

OUR QUALITY POLICY

As Özarслан, we state our quality policy by mentioning our core principles.

Our core principles are:

*to meet the needs and to satisfy the expectations of our stakeholders with the participation of our employees

*to be fair, visionary, courageous, conscious and conscientious,

*to make a non-stop progress in the cause of our objective of production with the highest standards of quality, in the framework of our ideals and ethical values.

*to comply with the requirements of the quality management system by taking environmental factors and occupational safety rules into consideration and to ensure continuous improvement in this regard.

*to produce appropriately in accordance with national and international standards.

*to keep our production at the highest quality standards.

*to educate our employees in order to make them serve better and to improve their personal skills.

*to maximize our customer satisfaction.

*to gain the trust of all our stakeholders by reaching the quality in the most economical, fastest and shortest way.

*to be sustainable and to add value to our quality with our expertise.
